Assessor Comments	Buyers, this is a nice line of Angus heifers that present in store condition with plenty of compensational weight gain averaging 235kg. These heifers have good length of body with nice depth. Heifers are well bred out of medium to large frame Angus cows by stud Angus sires. Heifers are extremely quiet to handle through yards and paddock. These heifers are only getting sold at this weight due to failing seasonal conditions. These heifers are normally sort after for feeders or breeders being sold to repeat buyers.
