Assessor Comments	Buyers. This is a great line of tremendously bred EU Angus steers showing great weight for age averaging 414 kg at just 12 to 14 months old. These steers stand on good bone with length, depth and volume. They ooze breed character showing nice muscle with great softness. These steers are bred out of medium to large frame Angus cows by Texas & Raff Angus well above average stud sires select on growth with IMF. Steers worked very well through yards. This is an outstanding line of well bred steers with a great reputation with breeding to back them. Note 1 steer small old blight scaring but not detrimental. Odd steer showing white on under line.
