| Assessor Comments      | A line of well bred Angus heifers presenting in fresh condition. Heifers have been bred on lighter country and moved to Clifton after weaning. Heifers have been running on the tail end of oats with the vendor not retaining any heifers this year. Heifers were good to handle at assessment and would suite future breeders or to take through to heavier weights.                         |                                           |                                        |
