Assessor Comments

A mostly good to very good quality line of 6 - 12 month old heifers. All heifers were purchased as weaners off AuctionsPlus in April, ex Dalveen QLD. 38 hd are sired by mostly Glenisa Angus & a BBB Brangus bull. The balance are by Palgrove Angus & Advance Angus bulls (as per purchase assessments).They are mostly medium to large framed, with 5% small. 11 Heifers noted with patches of hair loss on the face and/or neck. One heifer has a hard lump under the chin (see 0:19 in video), this heifer can be removed from the line post sale at buyers request. Two heifers have small amount of warts on face. Heifers have been grazing oats crop since 05/07/26. They would suit to continue onto crop for the export feeder markets, or grain finish for a range of high quality slaughter markets. Alternatively the top 47% very good quality heifers could have the potential to make very good quality future breeders. Please note the vendor originally purchased these heifers to join and is only selling due to the season.
