The vendor places strong emphasis on high IMF and growth, consistently buying bulls with top end genetics to drive herd performance. These heifers are , quiet, and present a great opportunity to add high-performance bloodlines to your herd. Buyers note there was 1 yearling bull found in with the mob and was removed in early May. Heifers were pregnancy tested on day of assessment with 100% tested non detectable. Three heifers have old pink eye scaring in an eye but doesn't appear to be affecting their sight in any way. Three heifers have a little white on their udder. One heifer had white scarring in one eye, and one heifer had fresh pink eye she was treated on day of assessment she will be pulled out if it's still active Some heifers are showing signs of rubbing There are another 43 lighter heifers in the same sale.
