Assessor Comments	80 Excellent Quality NSM future breeder Angus heifers. 12 - 13 months, these heifers are in forward store / store condition and averaged 351kgs (curfew weight) at the time of assessment. Vendor has used pure Abington bloodlines for over 30 years and has always grown out really efficient breeders. These heifers would make great future breeders. Heifers are moderate framed and display plenty of depth, shape and bone early on and will only continue to improve with age and development.
