Assessor Comments	Good Line of EU Accredited Vendor Bred Store Condition Angus & Angus x Steers . Steers are NOT Normally sold at these Weights .Ave Weight : 284kg (242 - 341 kg) at assessment after O/Night Curfew. Steers that have been on grazing canola crop for a short period of time & are really starting to do well. These Steers have had a tough start to life & tight feed conditions through most of Autumn & Winter. These Steers will have good compensatory growth rates on quality feed. The Steers are showing good Medium frame but lacking weight. Some of the Steers are just starting to clean up in the coats .These Vendor Bred steers are normally grown out to Heavy feeder or Grassfed Msa Kill weights. They are good easy doing cattle that will suit all markets . Note: Adjoining Neighbour has a similar line of 25 Hd Steers in same sale that would make up a B-Double . A number of steers with old blueish scar in 1 eye (Not Detrimental & all Feedlot acceptable) Steers are still cleaning up in the coats with some showing some small Warts on the Neck & cheek area.
