Assessor Comments	Good quality Angus Heifers that go back to one of the oldest Angus herds in the district. Steers that have the frame and constitution to put a lot of weight on. They will jump ahead on grain or grass .Due to a very tough 12 months and protracted calving there is a weight variance as you can see in the video's. The season has closed in completely so they have to go and you are not paying for condition. No heifers have been retained in herd. There is another lot of Steers from this vendor also in this sale.
