Assessor Comments	A/c Gooramadda, Team Te Mania and ACR member. (TACE recorded) *EBV Avg (measured on 25 drop heifers) in documents* ***NOTE; +4.2 IMF Avg in this drop.*** Angus steers 13-14 mths 395kg, Te Mania sires Raoul, Rocco and Rocky in AI program (19 steers in total that are identified by yellow management tag) balance bulls supplied by TeMania. The Gooramadda herd has invested heavily in genetics and data collection to produce one of the North East's finest commercial Angus herds. These young steers have weight for age, beautiful skin and hair that you want in Angus cattle, while being backed up with a comprehensive animal health program (inc Bovilis x2) Post weaning steers have been paddocked on green pick with grass hay. Damaged eyes would pass feedlot entry protocols. ** Check documents for photo of 24 drop home kill steer **
