Easy to handle young cattle.

Handled With: Bikes

Assessor Comments: These Vendor bred March & April drop heifers represent a great opportunity to secure young cattle that are ready to grow. After the best possible start these heifers looked a treat at weaning and since weaning they have only gone ahead. These Calves are throwing well to the attributes of the Danish Blue, shaping up well with good depth of body. An ideal line of

	heifers to put out and take advantage of the Spring flush or put on a feed ration and target a domestic or export market.
