Assessor Comments	Offering 108 mixed sex Angus Cross weaners. The weaners were 215kg live at assessment after an overnight in the yards off water. The weaners were mainly weaned in June so are not carrying any excess condition and are quiet and well handled. At assessment there were 67 heifers and 41 steers in the mob. The weaners are out of a mixture of vendor bred and purchased in cows by Angus Bulls. These weaners are a good light weight article to put away and grow out for feeders next year. Please note at assessment one weaner showing old blight scarring in one eye (photo attached).
