	Quality Grades		Store Condition		
	Very Good	38%	Fwd Store	50%	
	Good	62%	Store	50%	
Temperament	Yards		Crush		Paddock
	Quiet: 80 head		Quiet: 76 head		Temperament not assessed in Paddock
			Slightly Stirry: 4 head		
	Heifers were good to handle throughout the yards, race and crush. Four were slightly agitated when in the crush. All settled once back together and remained settled when being photographed.				
Handled With	Bikes				
Notable Traits	Traits				
	1 Head	Slight blue eye in one eye			
	2 Head	Small amount of warts on face/neck			
Assessor Comments	A line of vendor bred, good to very good quality heifers. Mostly medium to large frame with 4% small framed. They would suit to background to the top end of the feeder market or move onto crop or grain to finish for a range of high quality slaughter markets. The top 50% were over 300 kg full and could be taken directly onto feed now. Alternatively, the top 38% VG quality heifers could have the potential to be very good quality future breeders. They were yard weaned in April onto oaten hay before moving into the paddock with access to Riverina weaner pellets up until start of July. Heifers moved onto a Barley crop in June which is now drying off. They have had two shots of 7 in 1 and had their first dose of Bovilis MH + IBR in April. These 10 - 13 month old heifers are sired by registered Lawson Angus bulls & Angus paddock bulls with Booroomooka blood. Located 130km West of Goondiwindi, off the Barwon Hwy.				
Assessor	Tayla Craig (Level 2 Accredited) Phone: 0475 692 351
