	These F1s are free moving and did want to rush through the yards and did need to be steadied when going through gate ways, force and up the race. Generally good to weight and process through the yards and race with the odd yearling wanting to push forward.

Assessor Comments	"LONGFORD STATION WAGYU" F1s 104 MIXED SEX F1 BACKGROUNDERERS THAT HAVE HAD ALL THE PRE TREATMENTS. Bovilis MH+IBR, first & second dose. Plus all other necessary annual health treatments when needed. These very good quality F1s have grown out very well and would suit the backgrounder that will continue to push them through to heavy feeder weight and then all the way to heavy kill bodies. Previous drops have always performed extremely well in multiple feedlot programs and have marbled exceptionally high. BY THE HIGH INDEXING WAGYU BULLS OUT OF LARGE FRAMED COWS.
