Vendor Comments	This is a very regretful sale of our entire no 6 steers that normal get sold as heavy feeders. Steers are in store condition with compensational weight gain.

Assessor Comments	Buyers, here is a nice line of Straight Angus steers showing great compensational weight gain averaging 290kg. Steers stand on good bone with frame. These steers have nice length of body with room to keep growing out. Majority of steers are vendor bred being out of medium to large frame Pathfinder & Hazeldean stud Angus sires selected for growth. Steers worked well through yards with only the very odd steer agitated under pressure but settle once released. This is a good opportunity to purchase straight Angus steers with compensational weight gain. Note 2 steers cut later but softening down.
