Assessor Comments	Buyers a very nice 2 deck line of straight angus heifers for your consideration. These heifers would very much be suitable to retain as breeders showing very good characteristics to grow into good big cows. There is a fair portion of these heifers that would usually be retained by the Rynne family for breeding stock, but due to the seasonal conditions these heifers are available for your competition. These are very well bred heifers that carry a wealth of genetics and would equally make terrific trade heifers. These heifers look to be just cleaning up on the dry feed available to them and if given the opportunity on good feed, these heifers would be unrecognisable in no time. The heifers present in strong and healthy store condition, an ideal article to go on with weather it be to breed from or feed on.
