	Drafted from a large mob the heifers were easy to mob up and walk in. They block up and walk well in paddock. In yards heifers flow through well but need to be steadied. Some when drafting in round yard moved quickly and some when singled out did become unsettled. In race/ weigh box heifers flowed quickly and a fair majority did become more agitated in weigh box. When back in mob were more settled again.		
Handled With	Bikes , Dogs , Vehicles		
Assessor Comments	An even, quality line of Charolais composite type heifers that were originally purchased for their breed quality & soft type. Since being on hand the heifers have been a pleasure to handle. They have also performed very well in the time on hand for weigh gain and growth. For sale earlier than trading program predicted due to shortening water supplies. A genuine article that are really on the move forward.
