Assessor Comments	A very good quality line of angus feeders steers that are primed for the feedlot. Steers have been bred form a quality line of big framed angus cows and were sired by quality Booroomooka angus genetics. Steers are deep sided thick bodies that will accommodate a short or long fed program. Steers show great weight for or age at 14 -16 months old as vendor has not let these steers miss a beat, getting fed a ration shortly after weaning as dry conditions pressed on, to then getting moved on to crop now presenting in great forward condition these steers are primed to continue forward once hitting the bunks.
