Assessor Comments	35 Angus x Angus Feeder weight steers, Bongongo / Coffin Creek bloodlines, June / September 25 drop calves, These steers where the progeny from two lines of cows and calves purchased from auctions plus last year. Pink tags (June drop) steers have received their first dose of Bovilis and are powering ahead on a grazing oats crop. These steers averaged 400kgs (curfew weight at assessment). Steers are showing great signs of growing out to reach heavier feeder weights and are only being sold due to the seasonal conditions deteriorating and wanting to focus feed into breeders.
