Steers are incredibly quiet to handle & move between yards. Steers have been drafted by children with not one getting stirred in any yard only a small number while mouthing. One of the quietest mobs of cattle I have ever handled.

Assessor Comments	Buyers an outstanding line of 66 organic certified Santa bullocks that present in good strong forward store to forward condition. These steers are very well bred with large frames, big bone & plenty of depth evident in the cattle. All steers were mouthed at assessment with 22 x head mouth milk teeth, 40 x head presenting with 2 teeth & 4 head x with 4 teeth notified with feather bang. As mentioned in comments earlier this line of steers would be one of the quietest lines of steers I have been in the yard with so expect high performance levels given the opportunity to fresh feed or grain to finish off. Steers have been bred by Rosevale Santa bulls with top quality bulls purchased each year. At assessment there was 5 x head with some rub marks from fly. A very good opportunity to buy some heavy steers that wont take much to finish off for export market or could be processed now. Offered to be purchased c/kg or $$/head.
