Assessor Comments	28 Vendor bred Angus and Santa cross weaner steers. Early weaned due to seasonal conditions in May, these weaners have not taken a step back and are ready to explode on fresh pastures with the recent rainfall events. Born in a tight 6wk join, now ranging 6-7.5months old and averaging 287.6kg at assessment. Sired by an Englebrae Angus bull and a Cooinda Santa Gertrudis bull. Herd that is focused on temperament and large frame cattle that perform. Trained on feed bunks and feed bins, these steers will have no set back with the positive season that recent rains have produced. Tail end has been removed. Temperament and quality not to be missed!
