Steers were good to handle, vendor already had them drafted up ready for assessment on arrival. Steers were quiet as per video & photo's. They worked well through the crush and yards and after weighing walked back into the group at a steady pace. Nothing of concern with these steers that would raise any flags

Handled With	On foot , Vehicles
Assessor Comments	A good draft of Feeder steers that have had a great start and continue show growth potential through-out the winter months. Steers have been handled well at weaning and were good to work with. With the good Santa / Charolais cross these steers are showing plenty of length and stand on good bone. Great Steers to either grow to bullock weights and feed or ideal heavy trade feeders. Good quality steers in tick free area ready to go. Vendors have paid good money in the selection of the bulls used in their breeding program. This vendor also has 17 heifers in the same auction
