A quiet line of heifers that are exceptionally good to handle in the yards. All heifers flowed freely and worked well throughout the weighing and assessment process. Weaned and handled well, making them an easy line of cattle to manage. A credit to the vendor.

| Assessor Comments | Buyers an opportunity to secure a quality line of New England-bred Angus yearling heifers. Grass-fed and presented in fresh, forward condition, these females are beginning to clean up in the coat with the seasonal change, offering excellent potential for compensatory weight gain. Heifers weighed from 235 to 310kgs to average 265kg at assessment, if given opportunity ahead, these heifers represent an attractive proposition for producers looking to build their breeding programs or for backgrounders and processors targeting the domestic feeder and kill markets. |
