Totals			**77%**	**23%**	**100%**

Comment on Fat Score 1 Cattle: Store well grown Angus steers really "on the do". 80% of these steers only recently transported back too Laroca after being on crop at Hermidale. ADG 1.2kg.

Vendor Bred: No
Vendor has owned stock for 6-12 months

Stock History: 80% of this mob were purchased as 1 consignment, being light weaners on A+ in May this year. The remainder are a mixture of Vendor bred and purchased steers. All spent the winter on the road in North Queensland.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Breeding Comments: 80% of the steers sired by Mooroobie Angus bulls. The vendor bred steers are sired by Hazeldean Angus bulls.

Grazing Conditions: Grazing oats
Returned to: Sub Tropical pasture

Burr/Seed in Coat: Steers are still coating out and cleaning up, with very minor evidence of burr

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments	Drenched	15/07/2026	Cattlemax	
	Vaccinated	15/07/2026	5 in !	Booster

Fair	5%				

Temperament

Yards	Crush	Paddock
Quiet: 54 head Slightly Stirry: 2 head	Quiet: 50 head Slightly Stirry: 3 head Stirry: 3 head	Temperament not assessed in Paddock

Temperament of these steers is a feature. These steers have been on the road in North Queensland over the winter before being transported back to NSW early September. These steers could be described as docile for the most part.

Handled With: Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments: 55 Angus Steers with loads of compensatory gain, the win in these steers cannot be understated. 80% of theses steers are 1 mark purchased off A+ in May, the balance being a mix of Vendor Bred and locally purchased steers. These steers have been on the road in North Queensland for the winter before being trucked directly to Laroca or via Hermidale on an oats crop there. All steers drafted to meet feedlot entry Angus Specifications or have the frame and growth to suit Angus Export Markets. All mouthed milk teeth & 6 x 2 teeth. 1 steer with plenty of warts on his neck and face (see photos) with a few others with very light occurence on face, both NDD. Current ADG is 1.2kg but these steers are only just hitting there straps and in my opinion on a continued upward plain of nutrition you will not recognise these cattle by Xmas. The temperament of these cattle will see them go home & go straight to work. Located on the main road just outside of Tamworth towards Gunnedah making transportation very convenient.

Assessor: **Timothy Hollis (Level 1 Accredited)** Phone: 0409 227 185

Delivery Period	09/11/2026 to 11/11/2026 (3 days)
Delivery Point	"Laroca" 2793 Oxley Hwy SOMERTON NSW 2340 Lat: -30.9386519 / Lng: 150.6372702
