Assessor Comments	On offer are 80 Angus Feeder Steers, August/September 2025 drop, approx 437kg at delivery. Steers display sublime breeding, have tremendous bone & capacity, in a forward store condition with a mountain of gain to be had. Steers that are quiet and will perform and explode on the feed bin. 70% are vendor bred being Milwillah blood, the balance purchased as backgrounders in early September for a trade. Steers have gained at over 2kg a day over the past 2 weeks and are seriously flying on the dryer type gutsy pastures coming forward currently. I have put a lesser weight gain on them as they may not stay as consistent over a week period after handling, please take this into account as the delivery/pay weight could possibly be more than 437kg. Steers sold on a cents per kg basis, weighed less 5% Orange local registered weighbridge. Great opportunity to purchase some genuinely high quality feeder cattle.
