	Traits
2 Head	very light warts.
6 Head	white flash near naval. see pics.
1 Head	white mark on lower flank.

Assessor Comments: A quality line of well grown, forward feeder steers. 57 are Renny Lea blood A/S drop steers purchased from Rye Park in April, and 9 are July drop vendor bred steers. These cattle continue to do very well on drying off clover based pastures recording 1.6kg daily weight gain over the last 3 weeks. They are very quiet and have been handled regularly. The steers are moderate to medium/large frame and carry heavy muscle and fat cover. They do have their feet firmly on the till and will continue weight gain on either good pasture or in the feedlot.
