| Assessor Comments | Presented is a small draft of Friesian steers that are well grown and structured. These steers averaged 421kgs LW at assessment and have been ticking over nicely for the vendors since purchasing them 11months ago direct from the breeder Ex Merton Victoria. They are in tip top condition to keep putting on weight and all are very good examples of the breed, with the right nutrition these steers would make excellent grass or grain finished bullocks with plenty of time on their side. |
