Assessor Comments	A clinking B-double load of Angus feeder steers weighing 414-540kgs full at assessment. Steers are of great composition, having plenty of length and depth of body to continue growing into a top quality run of bullocks. Predominantly, but not limited to, Rennylea blood. Great quality Angus steers that will preform given the opportunity. Having received their first dose of Bovilis MH + IBR, these steers make for an ideal load ready for immediate induction.
