Heifers handled very well & were a pleasure to assess, the odd heifer did move back & forth whist being weighed but exited the crush at a walking pace.

**Assessor Comments** A good line of Angus yearling heifers originally purchased Ex Armidale in the early autumn. Since arriving these heifers have been given every opportunity to thrive, being placed on good quality feed & grown out exceptionally well with responding to a kind winter & great spring. Displaying good growth, softness & plenty of future potential these heifers represent an excellent opportunity for buyers looking to secure good lines of young females. Suiting a range of production systems they would be ideal to continue grass or grain & taken out to heavier kill weights.
