Assessor Comments	A nice line of Angus heifers originally purchased Ex Inverell as light weight weaners in the early autumn. Since arriving these heifers have responded exceptionally well to a kind winter & excellent spring having been place on good deed throughout the seasons. They have developed into a well grown nice even line of heifers displaying good length, softness & doing ability. Heifers that would be ideally suited to take on & develop into future breeding females or continue growing out to suit a feeder or kill market.
