Quiet: 65 head Slightly Stirry: 13 head	Quiet: 65 head Slightly Stirry: 10 head Stirry: 3 head	Temperament not assessed in Paddock

Typically the Winnidad cattle are very good to handle. Working heifers through was no issue with the odd heifer pushing through to crush or being quick to exit. Four people working through yards would contribute. Photographing and videoing no issue with heifers settled in larger pen.

Handled With	Bikes , On foot , Vehicles

Notable Traits

	Traits
3 Head	Slight, old pinkeye scar not affecting vision
2 Head	White around udder
1 Head	White extending to naval, small white on spots on poll & nose

Assessor Comments	Offering a beautifully presented draft of Angus heifers presenting in principally forward store condition. They have received their 5-in-1 booster & Pestigard vaccination and are sired by Chiltern Park & Weeran Angus bulls, bred from a herd of Banquet, Barwidgee & Weeran blood cows. The Winnidad operation selects genetics on structure, fertility traits, above average growth, above 2.0 for IMF and positive fat. The intention was to retain these heifers therefore they have been running with top quality LBW Chiltern Park bulls since the 22nd October. Due to sale of block they are now surplus to requirements. With appropriate notice, vendor will PG heifers if required, at vendor's cost. The Winnidad herd are noted performance cattle that have performed for previous purchasers. They will mature into deep bodied, functional matrons if given the opportunity. Presents a terrific opportunity to acquire very well bred, Angus heifers as future breeders or background and finish on grass or grain to trade or export markets.
