Assessor Comments	A quality line of 14 vendor-bred Speckle Park/Angus cross heifers presenting an excellent opportunity for re-stockers or backgrounders looking for quiet, well-handled potential future breeders. Sired by Speckle Park bulls out of large-framed, locally purchased Angus and straight Angus cows, these 8–9 month old heifers display excellent length, depth, and structural soundness. They are forward in condition, averaging 329.5 kg at assessment (ranging from 287 kg to 369 kg) after grazing highly productive, green improved mixed-species pastures. They are exceptionally quiet and easy to work with, handling beautifully through both the race and the crush on foot and with vehicles. Please note these heifers will not be weaned prior to delivery. This is a well recommended, quiet line of young heifers ready to excel on high-quality feed.
