Assessor Comments	208 Good Quality, vendor bred Brangus Cross heifers that were weighed from 200-320kg to average 245kg at assessment, after 7 hours off feed and water. These heifers are sired by quality Palgrove and Milwillah bulls out of approx 65% Brangus cows and 35% Brahman Cross cows. They present in store condition with good frame to grow out as future breeders or background for the domestic feeder markets. Heifers are unjoined and were good to handle through the yards after being mustered the day before in hot conditions. Lands End is located north of the tick line however the vendor guarantees they scratch clean at delivery for QLD buyers or will guarantee they clear the Dip at Julia Creek for interstate buyers. Please note the two delivery dates the cattle remain on hand in the yards.
