These heifers were very good to handle in all parts of yards and crush. They worked well through backyards and were settled in crush. These heifers have had a fair bit of handling in the yards which is evident in the way the cattle behaved.

Assessor Comments: Buyers here is a opportunity to purchase a very good line of vendor bred Angus heifers. These heifers present in store condition and are just starting to power ahead on the green grass after the recent rain. These heifers are the perfect condition for buyers to purchase and background for the heavy feeder marker or to feed for the domestic market. I would expect a lot of compensatory gain for the purchaser. These would also suit future breeders looking for quality Angus heifers that are well bred and showing good feminine traits. Please note. Vendor has 25 Angus steers in the same sale.
