These steers were very good to handle in all parts of yards and crush. They worked well through backyards and were settled in crush. These steers have had a fair bit of handling in the yards which is evident in the way the cattle behaved.

Assessor Comments Buyers here is a opportunity to purchase a very good line of vendor bred Angus steers. These steers present in store condition and are just starting to power ahead on the green grass after the recent rain. These steers are the perfect condition for buyers to purchase and background for the heavy feeder marker or to feed for the domestic market. I would expect a lot of compensatory gain for the purchaser. Please note. Vendor has 32 Angus heifers in the same sale.
