Steers were well settled in yards on arrival and worked well during assessment process, one steer was unsettled in crush while weighing but once back with mob he settled quickly. Steers walked through pound yard and crush with no issues and settled as a mob once assessment was complete. I see no issues here

Handled With	On foot , Vehicles
Assessor Comments	A good handy draft of crossbred steers, majority have been purchased from Toogoolawah earlier in the year as lightweight weaners. Have been settled on the downs for months in a TICK FREE area. The growth for age of these steers are good with plenty of leg and bone. Steers are displaying length and good back ends where the meat grows. Great steers to feed now or to take on as young bullocks. Works out as a nice deck of steers that have the potential of some good growth and weight gains. These steers have had the handling and are on the move. These steers are worth the money. Quality
