Assessor Comments

A line of Vendor Bred Angus & Angus x Steers, sired by Texas Angus Bulls out of an Angus & Black Baldy Cow herd. At Assessment the steers weighed from 251-393kg to average 323kg full, with a projected delivery average of 307kg. Steers were running on a very dry paddock up until the rain 3 weeks ago and are responding well, they present in a store condition and are just starting to loose their winter coat as the season turns around. Steers were bred on the Vendors Rocky River country and were weaned and trucked to their Tenterfield Paddock at the end of July. A good opportunity to purchase yearling steers on the move, with good compensatory weight gains.
