Extremely well-handled Angus steers, accustomed to bikes, dogs, horses and aircraft. Flow exceptionally well through the yards, with a handful pushing hard or becoming slightly stirry on exit, nothing detrimental. Settle quickly in the paddock and were very easy to photograph and video. Overall, a very well-educated and easily managed line of steers.

**Handled With** Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles

**Notable Traits**

| | Traits |
|---|---|
| 2 Head | Healing signs of Ringworm |
| 2 Head | Minor pinkeye scaring |
| 3 Head | Warts |

**Assessor Comments** An impressive line of younger, later-calving Angus steers, 10–11 months of age, displaying excellent growth, depth and shape for their age. 70% vendor bred, backed by renowned Te Mania Angus genetics, with the balance sourced through Inverell and Glen Innes saleyards. Quiet, well handled cattle with the frame, bone and doing ability to develop into quality feeder steers. An ideal line to grow out, offering excellent weight gain potential and strong suitability for future feedlot entry. Animal Health: Buyers please note steers display minor, non-detrimental old pink eye scarring, with some cattle also showing warts and ringworm. Every effort has been made to exclude any steers displaying these conditions to a degree considered detrimental from the assessment.
