Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.

Temperament

Yards	Crush	Paddock
Quiet: 82 head Slightly Stirry: 12 head Stirry: 4 head	Quiet: 70 head Slightly Stirry: 20 head Stirry: 8 head	Temperament not assessed in Paddock

Well handled heifers which have had good handling since birth. Considering heifers where in containment pens at the start of weaning, temperament of the heifers is good. Please note a small percentage of heifers become very restless when in race & crush, the flight zone of these animals is very quick. With correct handling these heifers are fine though if not handle correctly they would become quite hard to handle.

Handled With	Bikes , Dogs , Horses

Notable Traits

	Traits
2 Head	Old Scaring on one eye, not detrimental
3 Head	small amount of warts present on coat
7 Head	White patch present on utter

Assessor Comments	A Commercial line of one brand, vendor bred, weaner heifers. The vendor has a strict selection process when choosing sires and retaining females. Selecting sires with correct IMF traits has been a must, to ensure marbling in future offspring, heifers have been growing out well considering this years conditions, heifers will perform well if given the opportunity. Please note some heifers show slight navel, appears to be genetic throw back from stud angus bulls used in the past on the maternal side. Some heifers become agitated when in the yards if handle incorrectly, though with correct cattleman ship they are fine. Don't miss the opportunity to purchases an even line of background or future breeder heifers. Buy with confidences.
