Utilising a quality set of yards, these steers were easy to handle for accomplished cattle people. A couple became stirry when pressured in the crush.

Assessor Comments	An outstanding line of Angus feeder steers - a rare opportunity to purchase 4 decks of steers already comingled and performing. Currently on a backgrounding ration which is delivering an average current weight gain of 2.3kg/day. Steers would be an exceptional purchase to put on feed to take through to slaughter weights. Given the hard work of introduction to feed and animal health treatments including Bovillus has been done, there is little work left to do.
