Assessor Comments: A very good line of 64 Preg Tested Empty backgrounder Angus heifers that present opportunity to the trader and re-stocker. These heifers present in very good condition after their time on the oats, which has had continual rain through October and November. These heifers have performed and grown well for the vendors and with sufficient nutrition can be confident they will continue to progress. Photos and video represents the mob of 120 as a whole due to insufficient yard space at the time. These will be drafted into their heavy and light lines at delivery.
