Assessor Comments

A rare opportunity to secure a five deck line of outstanding quality performance vendor bred EU angus steers that have never before been offered via the Auctions plus platform. The Baringa bloodline descends from Glenavon angus, Outside genetics are imported through an annual AI program and careful purchases from like minded studs to continually grow and strengthen there herds performance, and nothing paints a better picture for performance than of August/September 2025 drop yearling steers averaging 485 kg at assessment. Originally Yard weaned before being confinement fed in bunkers from April through June, then transitioned onto ryegrass where they have remained to the present thus presenting in excellent condition, steers are very quiet and well handled that offer outstanding potential for feeders. steers have been specifically bred for growth performance and carcass quality, with a strong emphasis on marbling. Baringa-bred cattle are entered in feedlot performance trials annually and have consistently excelled, securing numerous carcass awards and demonstrating their ability to meet premium market specifications and premium branded beef programs. Don't miss this opportunity to secure a very even line of high-quality cattle that have the genetics and performance record that will add value throughout your whole supply chain. Steers have been pre treated with bovilis.
