Quiet: 80 head Slightly Stirry: 28 head	Quiet: 60 head Slightly Stirry: 48 head	Temperament not assessed in Paddock

Steers are well handled at weaning setting them up from the beginning, These steers are free flowing through out the yards and remained sensible through the process of drafting/weighing for the assessment. They were photographed & video in a larger holding paddock given the opportunity they could raise up but handled correctly temperament is a plus.

Assessor Comments

A/C GLENROWAN STATION An excellent line of 108 vendor-bred Angus steers, March/April 2026 drop, offered on account of Glenrowan Station. These steers are bred from moderate to large-framed Angus cows, sired by high-indexing Scotts Angus bulls. Glenrowan Station has maintained a strong breeding relationship with Scotts Angus for the past eight years, consistently producing quality Angus cattle with desirable growth, frame and performance characteristics. In previous years, Glenrowan Station steers have been successfully grown out to heavy feeder weights and have developed a strong reputation amongst feedlot buyers throughout North West NSW and Southern QLD. These steers present an excellent opportunity for backgrounders and feedlot operators seeking well-bred, vendor-bred Angus cattle with proven breeding history and the potential to grow into heavy feeder specifications. WEIGHT DETAILS: Steers averaged 275kg at assessment following curfew. Assessor advises a full weight range of 270–329kg. PLEASE NOTE: Vendor has two lots in this sale, comprising 108 head and 72 head respectively. Both lots will be offered as a run out the gate.
