cattle assessed after storm, most very easy to manage. Some are a little quick when singled out and pushed into crush. once back in mob they are fine. None aggressive.

Assessor Comments	A great opportunity to purchase a run of one mark vendor bred weaner steers. Very good cold country genetics and are proven performers, they are cleaning up in the coat and really starting to excel in the conditions. decent sized frame and they will continue on and hit your feeder/export markets with ease given opportunity. Please note buyers sisters are in the same sale and there is a steer with old pink eye scarring in one eye, also a small amount of ringworm around a couple of eyes not deemed detrimental. One steer sighted with white belly.
