These Heifers ran into the yard well. A few did not settle in the yards straight away and were a bit stirry first up, more trying to get away from you. After assessing they settled once back with the mob. To be fair we ran them in and started the assessing process straight away. The odd one played up in the crush , nothing unusual there. Overall Heifers that are easy to handle by experienced operators.

Handled With	Bikes , Vehicles

Notable Traits

	Traits
1 Head	Slight pink eye scar in one eye that does not appear to be active.
2 Head	Small patch of White on the adder

Assessor Comments	A tidy line of 58 Millah Murrah blood Heifers that are going forward and are the ideal weight to join or alternatively finish on grain or grass. They are Heifers that will make for front paddock cows. As you can see by the videos they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. The breeder has selected bulls on type not price and this shows through. 2 have a small patch of white under the udder. The tail has been taken out. There is another lot of Steers from this breeder also in this sale. Inspections prior to sale welcome.
