Temperament

Yards	Crush	Paddock
Quiet: 50 head Slightly Stirry: 31 head Stirry: 5 head	Quiet: 45 head Slightly Stirry: 34 head Stirry: 7 head	Temperament not assessed in Paddock

These Steers ran into the yard well. A few did not settle in the yards straight away and were stirry first up, more trying to get away from you rather than take you on. They do have a tendency to rush when handled but settle once back in the mob. They walked back out to the paddock well . To be fair we ran them in and started the assessing process straight away. The odd one played up in the crush , nothing unusual there. Overall Steers that are easy to handle by experienced operators.

Handled With Bikes , Vehicles

Notable Traits

	Traits
2 Head	Slight pink eye in one eye, appears to be old.
2 Head	Small patch of White between back legs.

Assessor Comments A tidy line of 86 Millah Murrah blood Steers that are going forward and are the ideal feeder weight to finish on grain or grass. As you can see by the videos they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. The breeder has selected bulls on type not price and this shows through. A couple have a slightly cloudy eye from pink eye infection that does not appear to be active. They are normally keep on for another few months but the very dry season has forced an earlier sale. The lighter end is age not quality related and the tail has been taken out .There is another lot of Heifers from this breeder also in this sale. Inspections prior to sale welcome.

Assessor **Anthony Atkinson (Level 1 Accredited)** Phone: 0412 777 700

Delivery Period 20/11/2026 to 27/11/2026 (8 days)
