Cattle handled well in the yards as a group. Through the race and into the crush some were a bit unsettled. Once through and back with the mob they did settle down with the odd steer that had a bit of run when in a larger yard.

1 Head Scur (see photo)

Assessor Comments	A very good line of Angus steers weighed into a tight weight range of 356-420kg to average 401kg full at assessment. Great steers to grow out to heavy feeder weights, go straight onto feed to take on to heavy grassfed kill weights. Steers not carrying excess condition and will gain weight quickly on good quality feed.
