Overall the cattle were good to handle. The steers all stood there quietly in the paddock for photos and grazed calmly. Once ran into the yards and pressure applied a few steers stirred up but quickly settled once returned from the mob.

Assessor Comments A rare and impressive opportunity for buyers to secure a large line of exceptionally well-bred EU and Never Ever accredited Angus steers. Bred in the Upper Murray from a renowned Angus herd with an outstanding 42-year history of carefully selected Te Mania genetics, these steers offer exceptional breeding, quality and performance potential. Highly regarded and sought after by major feedlots, this is a smart line of steers, buyers can have confidence in. Presenting in excellent condition, these steers are ideally suited to buyers looking to feed on and finish into big, heavy bullocks. A significant tail has been taken out and any eyes that are considered detrimental to the feedlot job. The vendor has 190 steers in this weight category, to be sold as a run out the gate. A full weight breakdown is available in the attached spreadsheet. The vendor also has a quality line of heavier-weight steers available in this sale, providing buyers with further opportunity to secure cattle from this outstanding Angus program.
