Assessor Comments

Offering a deck of British bred and British cross steers. Weighed 384-540kg off a full weight to average 450kg with a delivery adjustment applied. 100% grass fed and antibiotic free. These cattle have performed well since arriving and I don't see any reason as to why that won't continue. As these are purchased in cattle please refer the video to make your own assumptions as to what the crosses may be. Suitable to fatter for a domestic kill or to take onto heavier weights. Of a small sample of the heavier end mouthed all were milk teeth with one starting to break its teeth. Please note vendor is offering heifers of a very similar description in today's sale also to make up to 2 decks.
