The steers handle very well throughout the yards & move off easily with normal pressure and flight zone. The odd steer was fidgety & agitated when confined in the weigh box - however settled quickly once released back into the mob. For a mob of fresh weaners they have an exceptional temperament.

Assessor Comments	Very good quality vendor bred HGP free steer weaners in very good order yet not over done - strong forward to fresh condition. The lead draft of all steers weaned at Gue & Thornville, normally retained to a feeder weight. Very good frame, shape, style and stretch. Extremely quiet and well handled. Very tidy poll heads, highly recommended steers. 68 Angus cross, 53 Char & Char x & 35 D/M & Santa D/M cross. Very good Blacks, good creamy, caramels & reds in the Charolais and strong Droughtmaster colours & darker reds. 1 grey , 2 red & white and 6 brindles.Since assessment and weaning they have been paddocked out into a very fresh paddock on good quality green feed so I would expect compensatory weight gain since assessment . Buy with confidence , quality, temperament and performance.
