Assessor Comments	Buyers a rare opportunity presents itself to secure a run of lightweight ,Vendor Bred ,store condition ,Vendor bred heifers that tick all the boxes EU, USDA,NOP ORGANIC , GAP certified and Teys Grassland accredited .These heifers are out of medium to large framed crossbred cows by Simmental, Angus and Santa Sires.Early weaned in May due to severe drought conditions heifers went through a very dry winter and are only just starting to hit their straps after recent rain presenting great compensatory gains as they are all frame and no weight..Ideally suited to take through to Lucrative Organic feeder or slaughter market,alternatively for the conventional buyer they will suit all Domestic feeder markets or Pasture fed slaughter programmes as no grain , antibiotics or hgp. The Maranoa River cattle have a good reputation on grass and grain going to repeat buyers when normally sold as heavy feeders or Slaughter weights. Please note heifers with horn are only small weaner horn under 10 cm , Two showing slight blight scarring in one eye not considered detrimental.A 10 %tail was removed from this mob.
